

BRADY SHEA

Pittsburgh, PA | (203) 520 - 7671 | brady.shea97@gmail.com | bradyshea.dev

SUMMARY

Full-stack engineer with 6+ years of experience building scalable applications across frontend, backend, and cloud infrastructure. Skilled in React, TypeScript, Python, Go, AWS, and CI/CD pipelines. Experienced in leading projects, mentoring engineers, and AI development workflows. Seeking full-stack roles where I can continue growing while delivering impactful products.

EXPERIENCE

Dispatch Technologies

Senior Software Engineer

Jun 2024 - Aug 2025

- Migrated CI/CD from Travis CI + Cypress to GitHub Actions + Playwright, cutting build and test times ~75% and improving pipeline stability.
- Integrated AI tooling (Cursor, Copilot) into development workflow to reduce story completion time by ~30%.
- Led a 5-engineer Agile team across multiple sprints to meet product goals.
- Mentored and managed associate engineers, assisting career growth.

Software Engineer

Dec 2021 - Jun 2024

- Led frontend guild meetings of 20+ engineers to standardize UI best practices for optimization, accessibility, and component design patterns.
- Built production React/TypeScript features, integrated with a Ruby on Rails API and Go microservices.

Raytheon Technologies

Software Engineer I

Aug 2019 - Dec 2021

- Developed and maintained Java and C++ software components, across multiple teams, adhering to strict security and reliability standards.
- Served as SME for a critical system component, providing technical guidance and ownership.
- Built an internal lab testing tool with Python/Tkinter, directly enhancing system security and reliability.
- Recognized with the RTX Achievement Award and two Spot Awards for rapid, high-quality delivery and excellent technical collaboration.

PROJECTS

bradyshea.dev

Aug 2025 - Present

Full-stack personal portfolio

- **Frontend:** Responsive, modern UI with smooth animations and AI-assisted design (Vue, TypeScript, TailwindCSS, Vite).
- **Backend:** Secure API with versioned routing, automated testing, and CI/CD deployment (FastAPI, PostgreSQL, Docker, Pytest, GitHub Actions).

Gary

Feb 2018 - Present

Discord application

- Long-running Python application for Discord with 100+ active users, hosted on AWS EC2 for 7+ years.
- Features async tasks, scheduler, API integrations (Spotify, Imgur), and PostgreSQL data persistence.

Celebi

Jun 2018 - Feb 2021

Discord application

- Scaled Python application for a 200k+ member server; delivered ARG minigames, engaging 1,000+ active players.
- Built for concurrency and stability, used async programming and robust database design with PostgreSQL. Hosted on AWS EC2 to maximize scalability.

EDUCATION

Tufts University | Bachelor of Science in Computer Science and Mathematics

May 2019

SKILLS

Frontend: React, TypeScript, Next.js, Redux, TailwindCSS, Tanstack (React) Query, React Native, HTML, CSS, JavaScript

Backend: FastAPI, Python, Node.js, Go microservices, REST APIs, microservices architecture, Java, Ruby on Rails

Cloud/DevOps: AWS, Docker, GitHub Actions, CI/CD pipelines

Testing: Playwright, Cypress, Jest, Pytest

Databases/Tools: PostgreSQL, SQLite, Vite, Webpack, Git, Figma, Agile methodologies

AI Tooling: Claude Sonnet, GPT-5, Cursor, Copilot
